Product Description

Astronaut Light Projector with Timing Remote Star Cloud for Home Theater

Product Description:

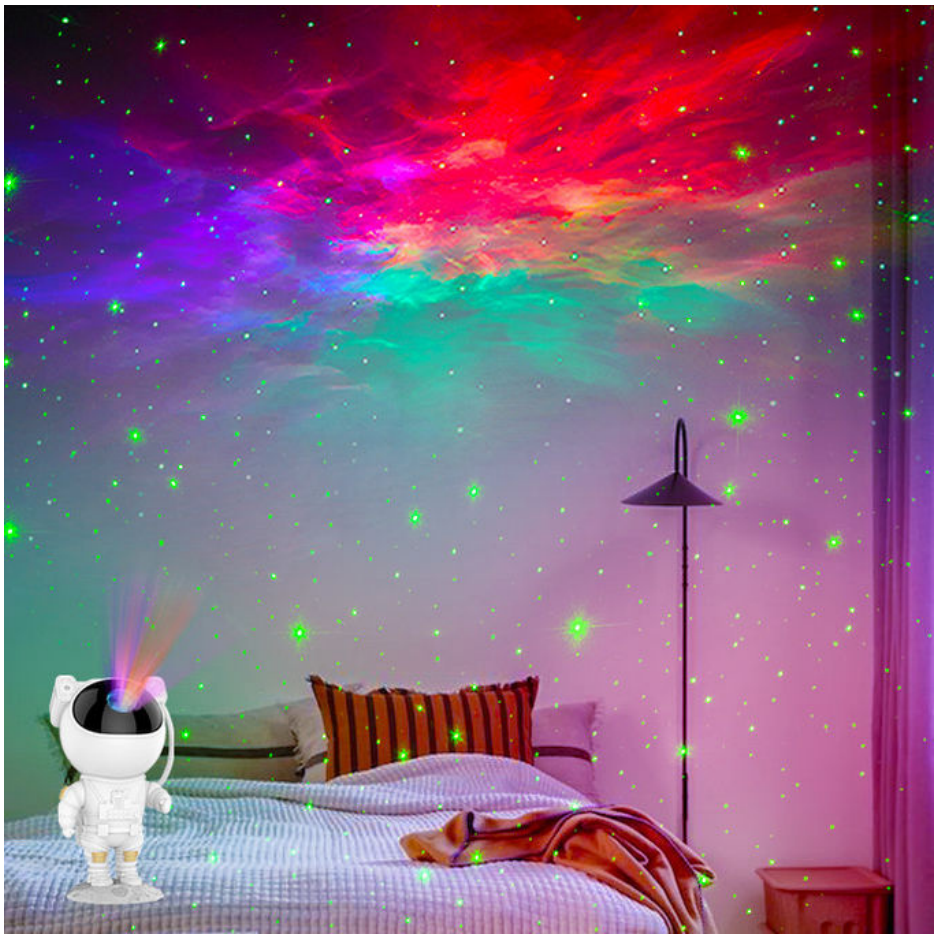

1. Astronaut Nebula Star Projector, This star projector night light features 8 stunning nebula effects accompanied by twinkling green stars. Project it onto the wall or ceiling of your room and it will bring the galaxy space light for you, creating a peaceful and relaxing atmosphere. Great ambient light for movie nights, date nights or game setups.
2. Remote Control And Timing, You can use the remote control to adjust the pattern, brightness and rotation speed to customize the projection effect you like. Star or nebula patterns can be used simultaneously or separately. Besides, you can set the timer to 45 or 90 minutes, in which case the led star night light projector will automatically turn off when you fall asleep under a starry sky.
3. Projection Angle Adjustable, This night light starry projector is designed to look like an astronaut, and the astronaut's head is magnetically connected to the body for easy adjustment of the nebula projection angle. In addition, the moon base is removable and the arm can also be posed, which makes it not only a galaxy star projector but also a good-looking decorative ornament.
4. Suitable for Many Occasions, The tiktok starlight ceiling constellation projector can be used in bedrooms, game rooms, home theaters, desk decorations, room decor aesthetic, living rooms to provide a cool atmosphere for date nights, game setups, movie nights, parties or as a night light to accompany kids to sleep.
5. An Amazing Gift for Kids & Adults, If you're not sure what to get your family or friends as a gift, this space projector is ideal for the holidays (Christmas, Valentine's Day, birthdays, etc.). Whether you're a kid who loves stars and planetariums or an adult who just wants to relax, who wouldn't want to have this adorable astronaut galaxy light? And who wouldn't want to fall asleep under a starry sky?
