Product Description

Astronaut Star Projector with Timing Remote Star Galaxy for KTV Bar Party

Product Description:

1.Take Me To The Galaxy,The astronaut light projector with appearance design has the rotatable arm and the 360-revolving head to create varied poses. Your budding space fan will be able to let his or her imagination run wild, expand their mind with nebula and star projector. It is not only a night light but also a perfect room decor.

2.Amazing LED Starry Light Scenes,The nebula effect can be manually or automatically switched into single-color, dual-color and tri-color mode (any combination of red, blue, green). Nebula and starlight can be opened independently. Project the starry and galaxy onto the wall or ceiling of bedroom making you feel like you are in the vast galaxy, creating a romantic atmosphere, and enjoying your leisure time with your family.

3.Easy to Use with Remote and Automatic Shut-off,This latest star projector light with a remote controller can freely turn on/off the lamp, change lighting mode and speed. The night light projector will automatically shut off after you set the 45min or 90min timer. Let the astronaut accompany you to sleep peacefully.

4.Project to Anywhere You Want,Thanks for the innovative design. The head and body of the astronaut are attracted to each other by magnetic force, which makes the projector rotate 360 degrees freely without restriction.

5.Gifts for Space Fans & Children,The Star projector night light is suitable for birthdays, halloween, christmas,universe space theme party favor supplies and room decorations, which creates a wonderful and starry atmosphere to help children stimulate their curiosity, imagination, creativity. Also Perfects for indoor decoration as an romantic mood light, night lamp,and bedside lamp.
