## Product Description

### Star Projector Remote Moon Nebula Projector with Timing Galaxy Projector for Kids Room Ceiling Decor

#### Product Description:

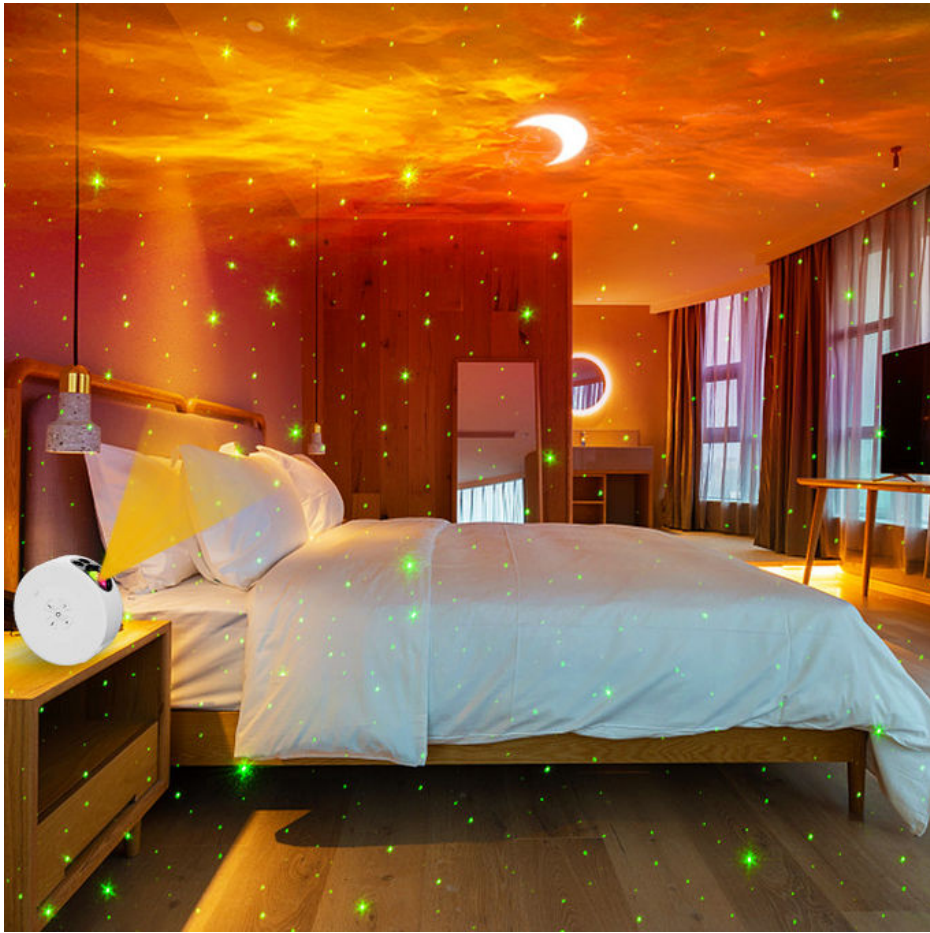

1. Wonderful Image Experience, The star projector galaxy light has 9 types of lights that can be combined to project 30 kinds of images, and for the first time uses dual laser projection, making the image colour more layered. The HD projection has recently projected an area of 20-30 squares and can project up to 40 squares, turning its blank ceiling into a starry light show.
2. Remote Control and Timer, The LED galaxy light projector with a remote control and its own timer function, all function settings can be achieved via the remote control, providing you with a more convenient life. You can also set the timer for 1h/2h via the remote control. When you use the timer function, the LED panel of the night light projector will flash light and you can also cancel the timer.
3. Sleeping Mode, The star projector provides basic lighting to turn on the sleeping mode, the moon mode is the sleeping mode, the light is soft and not harsh. You can also use the star projector during your child's bedtime story and let your child enjoy a sweet dream all night long.
