## Product Description

### Product Description:

G Speaker Lamp is an all-in-one audio lighting system that provides high sound quality and RGB lighting. It has an adjustable sound volume and a timer setting, allowing you to customize the music and lighting simultaneously. The G Speaker Lamp also provides custom OEM/ODM service for music and lighting solutions, making it suitable for a wide variety of applications.

The G Speaker Lamp is the perfect combination of music and lighting, combining great sound quality with vibrant RGB lighting. The adjustable sound volume ensures that no matter the size of the room or the type of music, the G Speaker Lamp can deliver the perfect audio experience. In addition, the timer setting allows you to customize the music and lighting simultaneously, making it ideal for any occasion.

The G Speaker Lamp is designed with custom OEM/ODM service in mind, allowing you to create a unique music and lighting experience tailored to your needs. Whether you want to set the mood for a party or create a unique ambiance for a special event, the G Speaker Lamp can provide the perfect solution. The RGB lighting provides a vibrant atmosphere that can be customized to your liking, while the high sound quality ensures a superior audio experience.

G Speaker Lamp is the perfect combination of music and lighting, providing high sound quality, adjustable sound volume, and custom OEM/ODM service. With its vibrant RGB lighting and timer setting, the G Speaker Lamp can create a unique atmosphere for any occasion. Whether you're looking for a music and lighting solution for a party or a special event, G Speaker Lamp has you covered.
